EXTREME AIR EXTRACTION

Careful research and development ensures that Smeg rangehoods are super-quiet with maximum extraction performance. These models offer the highest possible performance for extreme cooking conditions.

LOW NOISE

The design of the fan, motor and housing contribute to streamlined airflow which reduces noise levels during operation, for a more peaceful kitchen environment

TWIN MOTOR

Twin motor model rangehoods feature double air uptake and dual impellers for fast air movement and the maximum footprint for clearance. Twin motor rangehoods double the effectiveness of the appliance.

STAINLESS STEEL FILTERS, DISHWASHER SAFE

Smeg stainless steel honeycomb filters with stainless steel latch may be washed in the dishwasher for ultimate convenience. The 4 ply mesh effectively captures grease and grime whilst maintaining optimum airflow.
